

## BALTA FLOORCOVERING & BALTA ORIENT TURKEY ENVIRONMENTAL POLICY

Balta Group Turkey is a full subsidiary of Belgian based Balta Industries. As a result of our environmental approach based on sustainable development, our environmental culture and awareness, it is the responsibility of the complete Balta Group to prevent any kind of damage to the environment.

Our aim:

- ❖ To reduce to an absolute minimum the quantities of dangerous and non dangerous waste products and to avoid at all times the uncontrolled disposal of harmful waste to the environment.
- ❖ To continuously improve our Environmental Management System by following up and complying with legislation, and customer imposed environmental regulations, such as Noise, Emissions, etc. [other requirements](#)
- ❖ To reduce in a planned way the use of natural resources like electricity, water, natural gas by reducing its consumption or increasing the use of renewables.
- ❖ To provide sufficient training to all co workers of Balta Group to increase awareness about its Environmental Policy and Targets.
- ❖ To promote all kind of corrective and preventive actions aimed at reducing pollution.
- ❖ To support : the use of Environmental policy principles, the use of Environmental Risk Analysis, the measurement of Environmental performance with the aim to promote a Sustainable Environment.
- ❖ To provide the required human resources and other resources to develop a Environmental Emergency Plan.
- ❖ To analyze the root causes of environmental accidents and develop corrective and preventive procedures.
- ❖ To own a effective ISO 14001 Environmental Management System by means of continuously review.
